YOUR GOALS
ARE OUR FOCUS

Who we are:

LA Fitness is a branch of Jones Bros Ltd, a family wholesale company that has been **operating for over 100 years**. When LA Fitness New Zealand was established in 2003 we investigated our competitor's weaknesses and committed to making these our strengths. The results were:

- **A product range selected solely on its ability to help you achieve your health and fitness goals and a commitment to selling you the best product for your needs**, rather than trying to sell you the latest ineffective, overpriced fad or gimmick.
- **An unmatched five year, all inclusive parts warranty** and a guarantee to resolve any issue nationwide within seven working days (we hold over \$100,000 worth of parts on site so that you don't have to wait weeks or months for a repair). **This is in stark contrast to the industry norm which is a 12-24 month back to base warranty and no holding of parts** which can render your machine irreparable less than 18 months after your date of purchase.
- **An ongoing commitment to help you achieve your health goals**. To achieve this we have a number of optional services including; program design; monthly follow ups; ongoing nutritional advice; a free health support website (**www.thenakedtrainer.net**); and health packages (e.g **10kg challenge**). As a result of these additional services our customer success rate is now over 50% and climbing. Our **qualified health professionals** are eager to help you with any questions and requirements. Don't hesitate to ask.
- It is now common practice in retail to over inflate prices and then offer false discounts. Instead, we have **high quality products, at great value for money prices, 365 days a year, so that you know the price you pay today is the best available**. There is no risk of you driving by the next day and seeing a discount on the machine you just bought. If you are looking for a special price feel free to ask about our ex-hire purchase options.

LA Fitness is the fastest growing Fitness Brand in New Zealand sold through more than 50 stores nationwide. The LA Fitness team know our products inside and out and are 100% committed to your needs. Please tell us if there is anything we can do better, so that we can continue to be the best.
